

Celebrating Diversity within the Spetisbury Curriculum

Children:

- Experience a balanced representation of disability, faith, class, gender, culture, heritage and race
- explore stories of people from the past, looking at adversity, and the adventures and achievements of humanity
- explore a variety of diverse key texts linked to their topic
- learn about the accomplishments of different people
- learn about different countries, continents and civilisations
- experience whole school celebrations of festivals for the five major religions

Children:

- will study globalisation; that requires children to apply knowledge from across the geography curriculum.
- will use data from around the world to understand social, economic and political globalisation.
- will have many opportunities to reflect upon the advantages and challenges globalisation brings and will consider the importance of sustainability and equity in relation to human interactions with the physical world.
- Will develop a love for the subject of geography, and also recognise their own role in becoming a responsible global citizen

Children:

- Work in a range of different learning groups
- Work collaboratively on tasks
- Encourage other learners
- All children are involved in learning whatever their need
- People with disabilities are represented
- Children's own learning needs are celebrated
